Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Ione Junior High School conducted a comprehensive analysis of student performance in conjunction with district level administration and identified areas of need and growth for the Ione Junior High School program. Based on this assessment, IJHS administrators developed site goals and a budget plan which aligned with district areas of focus. The SPSA was then shared and discussed with the site leadership team to ensure that the plan is aligned with the site leadership objectives. The plan was submitted to the School Site Council with opportunities to ask questions and provide input and feedback. The Site Council approved the SPSA on September 13, 2018.

Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school’s goals. Duplicate the table as needed.

Goal 1

LEA GOALS: LCAP Goal 1 – By 2020, all students will advance along multiple academic measures toward meeting/exceeding standards in order to close achievement gaps and accelerate progress, including increasing the number of students successfully completing college preparatory and career technical education (vocational) courses by 100%.

SCHOOL GOAL: Ione Junior High School will utilize a comprehensive professional development plan and strategic intervention programs and initiatives to close the achievement gap by increasing the rate of students meeting standard in ELA and Math and preparing ALL students for college and career readiness.

Basis for this Goal

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students not demonstrating enough progress to meet proficiency levels on the California Common Core State Standards. As a result, it has adopted the following school goals, related actions, and the expenditures to raise the academic performance of students who are struggling. Ione Junior High School has identified 6th an 7th grade Math and ELA CAASPP achievement levels a critical area of focus for the school program. Upon analysis of this data, it is essential to address these gaps by expanding intervention options and electives to support student progress in these areas. The school has developed a Math PLC team with the objective of addressing low achievement levels for state testing. Administration has identified the need for targeted Professional Development in the areas of classroom management and instructional practice and is working with the Site Leadership team to develop, implement, and evaluate an effective professional development plan to meet these needs. The School has identified the need for targeted student academic support that prepares students for college and career readiness and is in the 2nd year of implementing the AVID program which is designed to close the achievement gaps and prepare a rigorous program of instruction in academic skills that will prepare them for college and careers. It is critical that the school continues to communicate and implement specific expectations for standards-based instructional practices in all academic classes and support the development of effective pedagogy across all core curricula. In addition, it is critical to provide a multi-tiered system of support and interventions to ensure student growth and achievement at grade level standards.

Expected Annual Measureable Outcomes

Metric/Indicator	Baseline	Expected Outcome
CAASPP (Schoolwide)	All Math 14% Standard Met All ELA 42% Standard Met	All Math 30% Standard Met All ELA 50% Standard Met
CAASPP (Targeted Math by Grade)	6 th Grade Math 4% Standard Met 7 th Grade Math 13% Standard Met	6 th Grade Math 15% Standard Met 7 th Grade Math 20% Standard Met
CAASPP (Targeted ELA by Grade)	6 th Grade ELA 18% Standard Met	6 th Grade ELA 30% Standard Met
Naviance Participation	No baseline data available.	95% of 8 th graders will have accessed the Naviance program

Goal 2

LEA GOALS: LCAP GOAL 2 –By 2020, through multiple measures, all students will show an increase in positive school engagement and connectedness with staff, peers, and community, including demonstrating improvement in social/emotional and physical health.

SCHOOL GOAL: Lone Junior High School will provide social-emotional initiatives and programs during the school day that improves campus climate and culture and supports student academic achievement and social emotional needs.

Basis for this Goal

Lone Junior High School has identified a significant need to meet the social-emotional needs of students in order to support academic growth. Many students fall within at risk sub groups such as special education, foster, low income, homelessness as well as other substandard home environments. The data has revealed that these students are not meeting standards in ELA and Math. It is determined that an essential part of the Lone Junior High School program must include programs and systems of support for these student populations that create a safe and positive learning environment where students can receive consistent and effective social-emotional support. Research and best practices have shown that students who are supported social-emotionally as well as academically will perform better in their classes, show growth through assessment processes, and attend school regularly.

Goal 3

LEA GOALS: LCAP Goal 2 – By 2020, through multiple measures, all students will show an increase in positive school engagement and connectedness with staff, peers, and community, including demonstrating improvement in social/emotional and physical health.

Action 2 - Increase home/school communication, outreach and parent/guardian engagement and education for/with parents of low income students, foster youth, English learners, and students with special needs.

SCHOOL GOAL: Lone Junior High School will initiate a public outreach campaign by utilizing multiple lines of communication to reach parents of low income, foster, ELL, and special education students to share school wide success, needs, and direction as well as provide multiple opportunities for students and parents to be engaged in the school process.

Basis for this Goal

lone Junior High School has identified a gap in communication to the school community, particularly with the parents of low income, foster, ELL, and special education students. Parents and students within these subgroups can be uninformed and unaware of the programs and systems the school has in place to support them academically and social-emotionally. This has affected student and parent engagement at school functions, attendance, and the school's ability to adequately provide services to students in need. There is a need to develop multiple lines of communication to inform the school community of the wide variety of opportunities for parents and students to be engaged in the school process. This will significantly help provide targeted support and intervention for students in need and engage parents in the process.

Expected Annual Measureable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Surveys	No baseline data available	Conduct end of the year parent surveys with 50% participation rate

Addendum

The Single Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California *Education Code (EC)* Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to *EC* 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. As such, the SPSA should be shared with, and schools should request input from, school site-level advisory groups, as applicable (e.g., English Learner Advisory Councils, student advisory groups, etc.).

Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

Goals, Strategies, & Proposed Expenditures

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve? A school may number the goals using the "Goal #" for ease of reference.

Basis for this Goal

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, and may include any data voluntarily developed by districts to measure pupil achievement.

Expected Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available

at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to be make in the coming year.

Planned Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. Strategies and activities that are implemented to achieve the identified goal may be grouped together. A school may number the strategy/activity using the “Strategy/Activity #” for ease of reference.

A school receiving funds allocated through the ConApp is required to describe in their strategies and activities how they will address specific state and federal requirements. A list of these requirements may be found in Appendix A: Plan Requirements for Schools Funded Through the ConApp. At a minimum a school receiving funds allocated through the ConApp must address these requirements; however, a school may describe additional strategies/activities as well.

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list and describe the proposed expenditures for the school year to implement these strategies/activities, including where those expenditures can be found in the school’s budget. The school should reference all fund sources for each proposed expenditure and should provide budget references as an object code or an object code description.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA.

Annual Review and Update

The planned goals, expected outcomes, planned strategies/activities, and proposed expenditures must be copied verbatim from the previous year’s approved SPSA. Minor typographical errors may be corrected.

Annual Measurable Outcomes

For each goal in the prior year, provide the metric/indicators, the expected outcomes, and the actual outcomes; review the actual outcomes as compared to the expected outcomes identified in the prior year for the goal.

Strategies/Activities

Identify the planned strategies/activities and the proposed expenditures to implement these strategies/activities toward achieving the described goal, then identify the actual strategies/activities implemented to meet the described goal and the estimated actual expenditures to implement the strategies/activities. As applicable, identify any changes to the student groups served.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the strategies/activities to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.
- Explain any material differences between Proposed Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes that will be made to the goal, expected annual measureable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

Budget Summary and Consolidation

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- **Total Funds Provided to the School Through the Consolidated Application:** This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- **Total Funds Budgeted for Strategies to Meet the Goals in the SPSA:** This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school may include additional information or more detail.

Consolidation of Funds

A school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program is required to include a list of state and local programs and other federal programs that the school will consolidate in the schoolwide program. A list of commonly consolidated state and federal programs is provided in Appendix B: Select State and Federal Programs. List the federal funding source(s) and the amount(s) being consolidated in the schoolwide program, then list the state and/or local funding source(s) and the amount(s). Adjust the table as needed.

Basic Plan Requirements

A school receiving funds allocated through the ConApp is required to develop a SPSA. The content of a SPSA must be aligned with school goals for improving student achievement. School goals must be based upon an analysis of verifiable state data and may include any data voluntarily developed by districts to measure student achievement.

The SSC is required to develop the SPSA, which must address each of the following, as applicable:

1. A description of curricula, instructional strategies and materials responsive to the individual needs and learning styles of each student (described in the Strategies/Activities).
2. A description of instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking students, including instruction in a language these students understand; educationally disadvantaged students; gifted and talented students; and students with exceptional needs (described in the Strategies/Activities).
3. A description of a staff development program for teachers, other school personnel, paraprofessionals, and volunteers, including those participating in special programs (described in the Strategies/Activities).
4. An identification of the schools' means of evaluating progress toward accomplishing its goals (described in the Expected Annual Measurable Outcomes) and an ongoing evaluation of the educational program of the school (described in the Annual Review and Update).
5. A description of how funds provided to the school through the ConApp will be used to improve the academic performance of all pupils to the level of state performance goals (described in the Proposed Expenditures for Strategies/Activities).
6. The proposed expenditures of funds available to the school through the programs described in *EC* Section 52851. For purposes of this subdivision, proposed expenditures of funds available to the school must include, but not be limited to, salaries and staff benefits for persons providing services for those programs (described in the Proposed Expenditures for Strategies/Activities).
7. The proposed expenditure of funds available to the school through the federal Improving America's Schools Act of 1994 and its amendments. If the school operates a state-approved schoolwide program in a manner consistent with the expenditure of funds available to the school pursuant to *EC* Section 52851, employees of the schoolwide program may be deemed funded by a single cost objective.
8. A description of how state and federal law governing programs identified in *EC* Section 64000 will be implemented, as applicable (described in the Strategies/Activities).
9. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC.

Authority cited: *EC* sections 64001(f)-(g) and 52853(a)(1)-(7).

Schoolwide Program Requirements

A school receiving funds allocated through the ConApp and operating a schoolwide program (SWP) must describe how the school will carry out each of the following components:

1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will
 - a. provide opportunities for all students, including socioeconomically disadvantaged students, students from major racial and ethnic groups, students with disabilities, and English learners, to meet the challenging state academic standards.
 - b. use effective methods and instructional strategies based on scientifically based research that
 - i. strengthen the core academic program in the school;
 - ii. provide an enriched and accelerated curriculum;
 - iii. increase the amount and quality of learning time;
 - iv. include strategies for meeting the educational needs of historically underserved populations;
 - v. help provide an enriched and accelerated curriculum; and
 - vi. are consistent with, and are designed to implement, state and local improvement plans, if any.
 - c. address the needs of all students in the school, but particularly the needs of those at risk of not meeting the challenging state academic standards, through activities which may include the following:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
2. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
3. A description of how the school will ensure instruction by highly qualified teachers and provide ongoing professional development, including
 - a. strategies to attract highly qualified teachers;
 - b. providing high-quality and ongoing professional development that is aligned with the state's academic standards for teachers, principals, paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff, to enable all students in the school to meet the state's academic standards;
 - c. the devotion of sufficient resources to effectively carry out professional development activities; and

- d. the inclusion of teachers in professional development activities regarding the use of academic assessments to enable them to provide information on, and to improve, the achievement of individual students and the overall instructional program.
4. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
5. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - a. Ensure that those students' difficulties are identified on a timely basis; and
 - b. Provide sufficient information on which to base effective assistance to those students.
6. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
7. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
